

# AMPLIFIERS/ HIGH IMPEDANCE/ eHSA4-150

## Applications

- Single or multi-zone BGM and paging systems with 100V line speakers, combined with the DAM, MIMO and SAM / eSAM series preamplifiers / processors

## High Impedance Multichannel Amplifier

ECLER ESSENTIALS eHSA4-150 is a multichannel amplifier with high impedance powered outputs. A very high efficiency and its auto stand-by function provide this amplifier with a true green profile.

## Key Features

- 4 mono balanced inputs (Euroblock terminals)
- 4 x 150 W RMS output (70/ 100V line level)
- Euroblock output connectors
- High efficiency, auto stand-by function and convection cooling (fanless, 100% silent)
- Thermal protection
- Overload protection
- Anti-clip system
- Volume control knobs on front panel

### Main Technical Specifications

|                                 |              |          |           |     |
|---------------------------------|--------------|----------|-----------|-----|
| Power output @ 100VRMS @ 25Ω    | 150WRMS      |          |           |     |
| Power output All Channels @ 25Ω | 125 WRMS     |          |           |     |
| Power output 1 Channel @ 4Ω     | 150 WRMS     |          |           |     |
| Power output All Channels @ 4Ω  | 125 WRMS     |          |           |     |
| Power output 1 Channel @ 2.666Ω | 300 WRMS     |          |           |     |
| Frequency response (-3dB)       | 20Hz – 30kHz |          |           |     |
| Dimensions / weight             | H: 482.6 mm  | L: 88 mm | W: 373 mm | TBC |
